## PROFESSIONAL SUMMARY

---

I am an experienced software developer with nearly three years of expertise in React.js and Node.js. I have successfully managed a team of six and trained three co-workers. I am seeking a Software Engineer position at a dynamic and growing company where I can maximize my skills and contribute to its success.

## EXPERIENCE

---

**Software Developer**  
Futurionic

Sep 2022 - Present  
*Gurugram, Haryana*

- **Frontend Development:** Experienced in React.js and TypeScript with a focus on functional components. Competent in JavaScript (ECMAScript), Axios, routing, NPM, local storage, and styles. Developed a custom reusable React component library.
- **Backend Development:** Skilled in Express.js, Node.js, and Sequelize for server-side development. Experienced with databases like PostgreSQL and MongoDB.
- **React Concepts:** Familiar with Context API, navigation, hooks, Redux, third-party API integrations, and other React concepts.
- **Version Control:** Proficient in using Git Bash and GitHub Desktop.
- **Project Development:** Designed and developed a range of client and in-house applications, streamlining internal processes and enhancing team productivity.
- **Team Management:** Effectively managed a team of 6, ensuring project goals were met on schedule and within scope. Provided training to 3 employees, fostering skill growth and professional development in React.js and Node.js.
- **Client Communication:** Acted as a point of contact for multiple clients, facilitating clear and open communication, understanding client requirements, and managing expectations.
- **Technical Leadership:** Conducted technical interviews to assess candidates and build a skilled team, contributing to overall company growth. Actively participated in code reviews, ensuring code quality, best practices, and knowledge sharing.

- **PROJECTS**

- **CreditGhar** Aug 2023 - Present

- \* Role-based authentication, Chart.js integration, Azure deployment, performance optimization, SMS API integration. *Tech:* React.js, TailwindCSS, Node.js, PostgreSQL

- **GCC** Oct 2022 - Jul 2023

- \* Chat and form functionalities, Leaflet Map, i18n for geolocation and translations. *Tech:* React.js, Material UI, Firebase, Leaflet, i18n

- **mtrack** hfill Sep 2023 - Present

- \* Leave, attendance, job, policy modules, backend maintenance. *Tech:* Node.js, Express, Sequelize, PostgreSQL

**Associate Software Engineer**  
Iedaas

Aug 2021 - Sep 2022  
*Agra, Uttar Pradesh*

- **Web Design:** Worked on web design, including HTML, JavaScript, and CSS.
- **Frontend Development:** Hands-on experience with React.js and TypeScript, with a solid understanding of functional components.

- **Backend Development:** Experience with Spring Boot, MVC, Hibernate, Express.js, and Node.js.
- **Database Management:** Good understanding of working with different databases, such as MySQL and MongoDB.
- **React Concepts:** Familiar with Context API, navigation, hooks, and other React concepts.
- **JavaScript Proficiency:** Proficient in JavaScript (ECMAScript), Axios, routing, NPM, local storage, and stylesheets.
- **Component Library:** Created a custom reusable React components library.
- **Testing:** Hands-on experience writing unit test cases using Jest and Mockito.
